Welcome

Animal Health Australia (AHA), Invasive Species Council (ISC) and the Centre for Invasive Species Solutions (CISS) are proud to present the inaugural Australian Biosecurity Symposium, held at the Crowne Plaza, Surfers Paradise on the Gold Coast, 12-13 June 2019.

The Symposium theme is preventative biosecurity practices and will focus on research and innovation, outside-of-the-box thinking and the exchange of knowledge and ideas across the biosecurity collective - agriculture (animals and plants), weeds, pest animals, wildlife, aquatics and the environment.

Australia's biosecurity system faces unprecedented pressure. To address this pressure, strong leadership

and innovation is essential. Our Symposium provides the ideal platform to explore how to transform Australia's biosecurity systems to better protect our economy, environment and way of life.

The Symposium will offer the opportunity to influence the direction of Australia's future biosecurity system, network, develop new concepts, share and test ideas, build new partnerships and engage in challenging discussions that stimulate debate and energy.

Don't miss out on the opportunity to engage with key decision makers, innovators, influencers and researchers in the Australian biosecurity sphere.

On behalf of AHA, ISC and CISS we look forward to seeing you at the *Australian Biosecurity Symposium*.
